Bluetooth mesh is a many to many broadcast structure that allows you to connect devices using a Bluetooth network that can communicate with each other to form the mesh network. Create the perfect ambiance with millions of colours to choose from to set the scene for a romantic evening or movie marathon to reading, relaxation and more.

- Low-maintenance solution for homes, offices, schools, retail and healthcare.
- Adjust the colours, brightness or colour temperature from a warm 3000K to a bright daylight 6500K or dim to suit your mood.
- Provides a wide diffusion of crisp light from an 10W LED light source.
- Fits in to standard 90mm cut-outs, perfect for new or retro-fit installations.
- External driver with flex & plug. (Total length 1.0 metre).
- Each mesh device provides extended connection range.
- Eliminates network blackspots.
- Suitable for complete home and large scale applications.
- Easy to connect, group and control panel lights.
- Control locally via Bluetooth on your phone or tablet or add a Mesh Gateway for greater functionality and automation.

APPLICATIONS

- Large scale applications to reduce the load on your WiFi.
- Complete home retrofit or new builds.
- Office & meeting room, supermarket, retailer shops.
