

EXTENSION RODS WITH & WITHOUT LOOM

Recommended Installation Height

Any ceiling fan should be at least 2.1 metres from the floor to the blades of the fan and at least 300mm from the ceiling.

Ceiling Height

If you have ceilings above 3 metres, you may require an extension rod. Brilliant has a range of extension rods in colours that match our fan range.

Extension Rod Range

The basic version is supplied without wiring looms and can be cut to length (if required). Our deluxe version comes with an easy connect wiring loom already fitted for quick and simple installation by a qualified professional.

¹ Flying leads need to be hard-wired.

² For DC fans, extra cabling by an electrician may be required as light loom is not included.

³ For these fans, the wiring loom must be hard-wired by an electrician.
