MAKE A STATEMENT WITH LARGE CURVED BLADES

The sweeping curved blades combine to provide a 72" (183cm) blade sweep in two rich timber-style finishes to make an impressive statement in large spaces.

RELAX WITH ELEGANT, GENTLE BREEZES

The Tropicana ceiling fan's beautifully detailed and curved blade design utilises a 13 degree blade pitch to provide efficient and quiet airflow.

ALL-WEATHER CURVED BLADES

Carefully crafted with an ABS plastic core and sheathed with weather-resistant aluminium, the Tropicana's blades capture stunning detail and are easy to clean as well as being safer and quieter than metal blades.

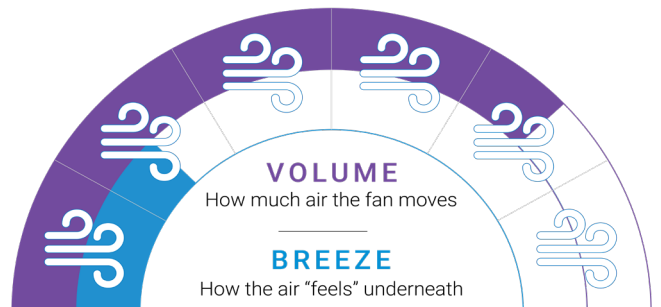

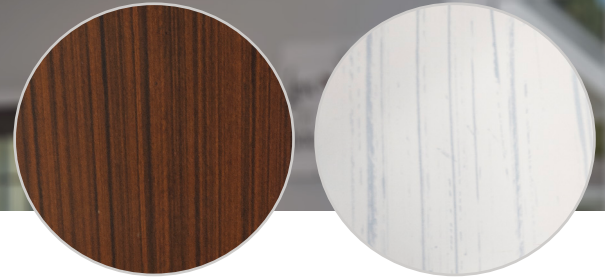

TRIED AND TRUE AC MOTOR TECHNOLOGY

Utilising time tested AC motor technology, the Tropicana uses a powerful 188x20 AC silicone steel motor to provide the power required to drive large blades.

INDOOR & OUTDOOR COOLING

The Tropicana ceiling fan has been carefully engineered to provide both indoor and outdoor cooling, utilising powder coated steel components and all-weather blades.
