

006 Series

VBLBOS-006-4-CCT

These Solar Bollards are constructed from salt spray and corrosion resistant die cast aluminium, which makes an incredibly durable fitting – great if your business is by the seaside or the bollards will be subject to extreme weather conditions from 15° - 65°. The built-in solar panel charges throughout the day and uses stored energy once night has set in. Please note: All VIBE LED Bollards are recommended to be mounted securely to a plinth/concrete base and not covered by any organic materials (dirt/mulch/sand ect) to avoid condensation entering and subsequently corroding the fitting. Not following this installation recommendation will void any stated warranty.

Features & Benefits

- Built in Solar Panel charges throughout the day and uses stored energy during the night
- Automatic day and night sensor installed
- Fast charging Lithium LiFePo4 Battery
- Seaside Resistant, Corrosion Resistant
- Replacement Batteries available
- IP65 rated
- 50,000 hour lifespan
- 3 Year Warranty

Specifications

SKU	VBLBOS-006-4-CCT
Luminaire efficacy	120 lm/W
EAN	9340994022222
Weight	10
Light Colour	2CCT
Wattage	4 W
Lumen output	480 lm
IP rating	65
CRI	80
Trim colour	Black
Length	1006 mm
Width	360 mm
Height	370 mm
Lifespan	50000 Hours
Warranty	3 Years
Material	Die Cast Aluminium
Lamp Type	LED / Solar
Weatherproof	Weatherproof
Working temperature	-15°C ~ +65°C
Kelvin	3000K,5000K
