

3X5-F-Y Series

VBLFT-345-F-Y

Featuring a high quality aluminium body, and an energy saving of up to 60% - the LED Yellow Tube Lamps make great direct replacements for T8 fluorescent lamps as well as also being a deterrent to insects.

Features & Benefits

• Yellow LED tubes are mainly used to deter flying insects such as moths as they don't see light in the yellow spectrum so are therefore not attracted to the light source. Yellow tubes are a very popular colour choice when it comes to installing new fittings or replacing old fluorescent tubes (or fittings) in any outdoor situation where flying insects are a problem such as public BBQ areas, signage or under eaves etc.

• Insects and bugs are also attracted to the heat produced by any light such as a fluorescent tube or an incandescent globe and because yellow LED tubes produce very little heat they, are an even more effective insect deterrent than their "old school" fluorescent tube cousins.

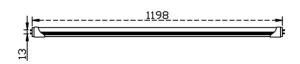

3X5-F-Y Series

Specifications

| SKU | VBLFT-345-F-Y |
|---------------------|--|
| Luminaire efficacy | 70 lm/W |
| EAN | 9340994016818 |
| Light Colour | Yellow |
| Wattage | 18 W |
| Lumen output | 1260 lm |
| IP rating | 20 |
| Beam Angle | 120 Degrees |
| Base Type | G13 |
| Diameter | 29 mm |
| Length | 1198 mm |
| Lifespan | 50000 Hours |
| Warranty | 5 Years |
| Shatterproof | Shatterproof |
| LED source | Epistar |
| Material | Aluminium Body with Yellow PC Cover |
| Accessories | Also available in Red, Blue $\& % \left({{\mathbf{F}_{{{\rm{s}}}}} \right)$ Green |
| Lamp Type | LED |
| Input voltage | 80-265VAC/50Hz |
| Diffuser | Frosted |
| Weatherproof | Non-weatherproof |
| Working temperature | -20°C ~ 45°C |
| Box Qty | 25 |
